

From the originators  
of PONG™ and GOTCHA™  
• Four people can play  
• Fits anywhere  
• Solid state computer design  
• Exciting new table cabinet

**ATARI**™  
INNOVATIVE  
LEISURE

GAME AT  
START

2 PLAYERS  
OUT

Another video action favorite! QUADRAPONG is the newest addition to Atari's unique line of video wall games. It's a semi-sensational 4-player game with a video ball bouncing from side to side off the four walls of the screen trying to penetrate each player's goal. A beeping sound simulates its rebounds and adds to the over all excitement. Each player tries to keep the ball out of his goal with a moving "paddle." If the ball penetrates his goal, he loses one of four points with which he begins the game. When all are gone, his goal closes. Players are eliminated until only the victor is left. Both sound and frenetic action challenge players to do it again. It's a truly irresistible game!

QUADRAPONG's exciting new table top design takes up less space. Its low profile allows room for 4 players and a congenial group of spectators. QUADRAPONG can be placed anywhere because of its clean, contemporary look, from home shops to restaurants, waiting rooms, bars, clubs, schools and offices.

**Always reliable games.** QUADRAPONG, like its forerunners PONG and GOTTCHA, features all solid state computer tested with

Atari's unique Durastress™ process. All Atari computers carry a one year warranty. Repairs after the initial warranty period are made by expert technicians at nominal cost. Major components are tested to MIL Spec 883.

**Easy to operate and service.** QUADRAPONG has a rugged console with precision engineering. This means less downtime and less trouble for you. The top is hinged and lifts up for quick, easy access to all major components. There's a separately locked cash box for convenience and safety.

**Fast profit maker.** Game time ownership can adjust from at 4 players for 25¢ all the time, or to 2 players for 25¢, 4 for 50¢.

**Dimensions.** Height 32 1/4 inches, width 35 inches, depth 25 1/4 inches weight 110 lbs.

**QUADRAPONG.** Another sure winner from Atari, the originators of video game technology. For further information, call or write Pat Kain, National Sales Manager, Atari, Inc., 14600 Winchester Boulevard, Los Gatos, California 95030. Telephone (408) 374-2440. Telex 35 7888.
